2. Legislative Program

a. **Sales Tax Referendum** – A motion by Bill Hanks to recommend to the membership for approval the proposal, amended to remove the split of proceeds for transportation and education, passed. The draft position and rationale would read:

   “Support legislation that would allow citizens of Fairfax County to decide, through referendum, whether to increase the sales tax by one cent, with the proceeds to be used for targeted local transportation projects vital to relieve traffic congestion and for critical capital improvements for the public school system.

   “Rationale: The estimated shortfall in the 2020 Northern Virginia Transportation Plan is $15 billion for the coming twenty-year period, resulting in a need for an additional $750 million per year, which cannot be expected to be funded by VDOT. The public schools are experiencing dramatic student growth of 3,000-4,000 students per year and its older facilities are in need of renovation, rewiring and updating. Both transportation and education infrastructure are in need of supplemental funding.”
